STUDIO LAB 2026

UNE COLLECTION MINÉRALE, ORGANIQUE & INTEMPORELLE

COMPOSER. ASSEMBLER. COMBINER.

Cette collection est née d'une conviction : La liberté de forme n'a de sens que si les textures suivent. Ici, chaque texture est pensée comme un module. Elle peut vivre seule, dialoguer avec une autre, s'inscrire dans une ligne, une courbe, un rythme architectural. Reliefs graphiques, surfaces douces, jeux de boucles et de profondeurs... Tout devient possible, pour imaginer des tapis uniques, dessinés à la mesure d'un lieu, d'un projet, d'une intention. Le sur-mesure comme terrain de création. Tous les modèles de cette collection peuvent être développés en coloris sur mesure.

COMPOSE. ASSEMBLE. COMBINE.

This collection was born from a simple conviction: freedom of form only makes sense when the material follows. Here, each texture is conceived as a module. It can stand alone, enter into dialogue with another, trace a line, a curve, an architectural rhythm. Graphic reliefs, soft surfaces, plays of loops and depth... Everything becomes possible to imagine unique rugs, designed to the scale of a place, a project, an intention. Custom-made as a creative territory. All designs can be developed in custom colours.

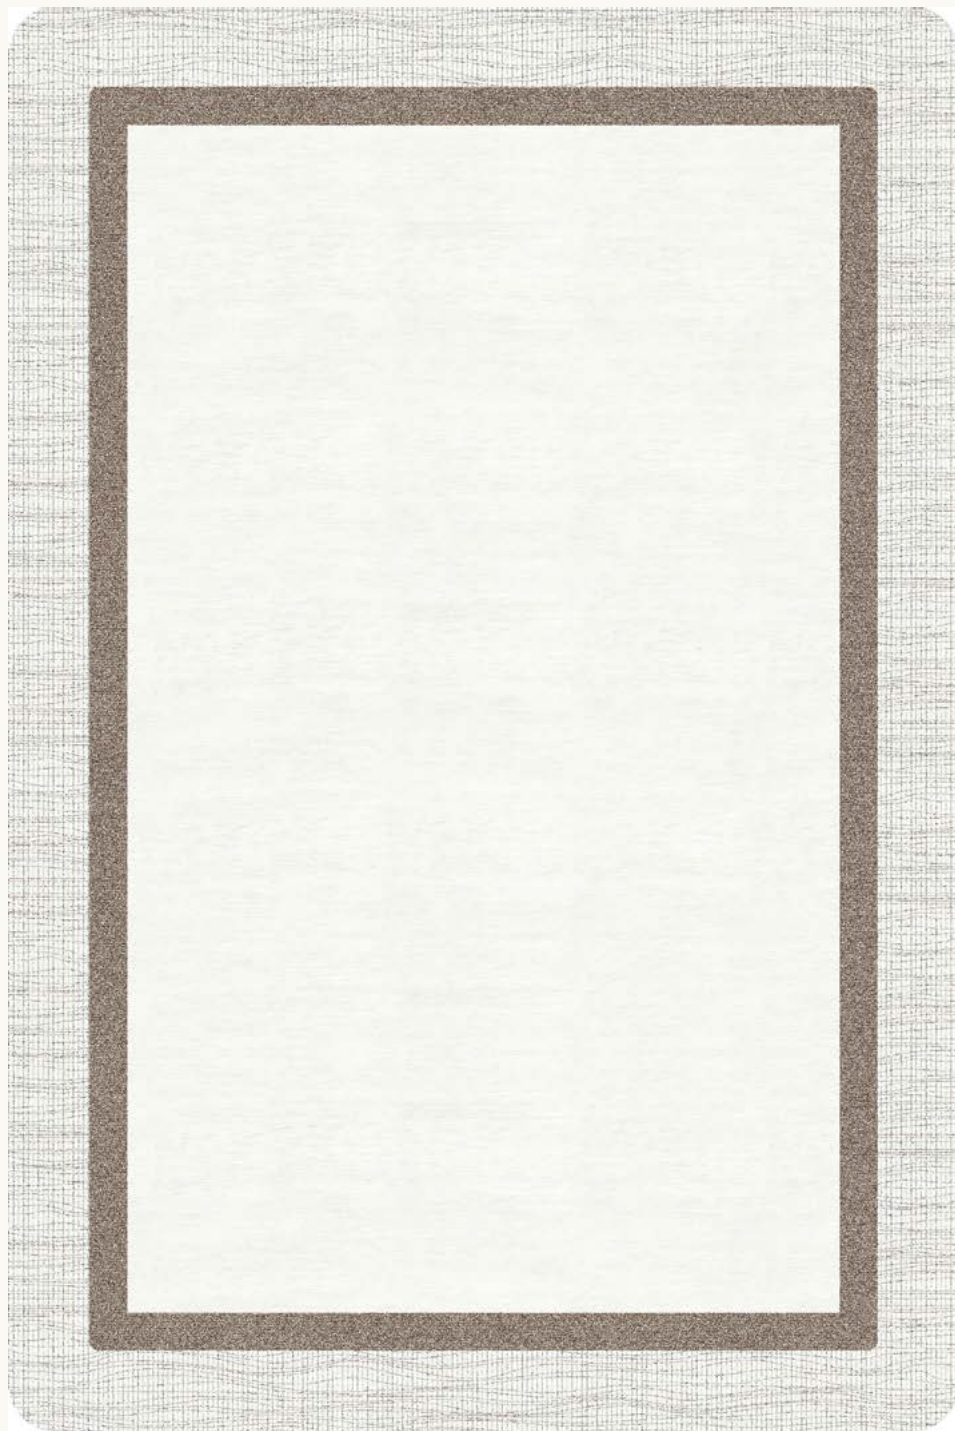

Texture 1
